

# BEN ACADEMY (The place to train your brain)

## INORGANIC CHEMISTRY EQUATIONS MADE SIMPLE

## COURSE DESIGNER

**JOHN LOUIS**  
GRAND MASTER OF MEMORY  
INTERNATIONAL MEMORY TRAINER  
TEACHER

John Louis is a GRAND MASTER of MEMORY and the first Indian to achieve the title and has several Indian National records on memory. He is also a professional International Memory Trainer and an expert teacher in chemistry and has 17 years of experience in teaching chemistry equations integrating memory techniques with learning and remembering chemistry equations. He has also conducted many INORGANIC CHEMISTRY EQUATIONS MADE SIMPLE program in India and Saudi Arabia. He has also started conducting it in Singapore.

He has appeared in SUN TV which telecast in 130 countries and ZEE TV which is one of another top TV channels in India to exhibit his memory skills that can be imparted to anyone by training.

## BENEFITS

Many students learn the entire periodic table by applying some memory techniques to amaze their parents, teachers and friends. Indeed, it is amazing! But, is it enough to score high marks in chemistry? The fact is, no it is not. In chemistry one has to learn to write the chemistry formula and equations correctly to score high marks.

Hence, this program is specially designed to make inorganic chemistry learning as fun in association with memory techniques and to score high marks in chemistry. The techniques applied here will also motivate the students to think creatively and apply them in the other subjects as well.

- Improves memory
- Helps to learn how to think
- Helps to learn how to analyze and synthesize
- Develops creativity
- Score high marks in chemistry

## TESTIMONIALS

I scored 200 out of 200 in chemistry effortlessly.

**N.S.P.Aravind, India**

---

I scored 100% in chemistry. I can remember the chemistry forever in my life. It is so simple and easy.

**Thasthageer, India**

---

I scored 199 marks out of 200. At last, I learnt how to learn inorganic chemistry equations.

**Senthil Kumar, India**

---

It is, indeed a transformation in my life. All my classmates and friends are after me to learn what I have learnt in this course. I am praised by my teachers for my wonderful performance in school.

**Shagana, Singapore**

---

Simply fantastic. A well designed course. I can think and find out the answers myself even for the chemistry equations asked outside my syllabus. Memory techniques is a bonus

**Nilofar Khan, Saudi Arabia**

## COURSE CONTENT

### Introduction

- Memory demo of a trained memory
- Memory techniques required to learn chemistry

### Memory Tricks

- Learn to use the memory techniques in learning chemistry
- How remember ions formula/symbol
- How to remember the valence of ions,
- How to write the formula of compounds

### Secrets of learning inorganic chemistry equations

- Types of reactions
- Recognizing the type of a reaction
- Learning to identify/guess the products
- Writing the equations
- Balancing the equations

## WORK DETAILS

- Duration – 5 days / 10 hours (2 hours a day) for +1 and +2 students in India
- Duration - 2 days / 4 hours ( 2hours a day) for 9<sup>th</sup> and 10<sup>th</sup> students in India
- Duration - 2 days / 4 hours ( 2hours a day) for S3, S4 students in Singapore
- Schedule – click here
- Workshop material will be provided

## BENEFICIERIES

- Students of age 14 to 17 in India (std 9<sup>th</sup> to 12<sup>th</sup> )
- Students of age 14 to 15 in Singapore ( S3, S4)

## CUSTOMIZED PACKAGES

Ben Academy also provides customized packages of INORGANIC CHEMISTRY EQUATIONS MADE SIMPLE to suit different age, different class of students according to varied syllabus in their school in different countries
